SUMMARY:

Motivated final-year B.Tech Computer Science student with skills in front-end technologies (HTML, CSS, basic JavaScript) and Cisco networking; passionate about building scalable backend systems and designing secure network architectures.

EDUCATION:

Bachelor of Technology (Computer Science) | 2022 – 2026 (Expected)

Gyan Ganga College of Technology, Jabalpur, MP

CGPA: 7.72 / 10

TECHNICAL SKILLS:

- **Programming:** Java, HTML, CSS, OOP, DSA
- **Basics:** DBMS, Operating Systems, JavaScript
- **Networking:** VLANs, DHCP, Inter-VLAN Routing, OSPF, ACLs, NAT, STP, SSH
- **Concepts:** Subnetting, IPv4/IPv6, TCP/IP, Switching & Routing
- **Tools:** Github, Cisco Packet Tracer

PROJECTS:

Website Project: QuoteWeb - [Github-Link](#)

- Developed a "QuoteWeb" website using HTML, CSS, and JavaScript, allowing users to read motivational quotes.
- Implemented a random quote generator with a refresh button so users can easily discover new quotes every time.
- Added a share feature using the Web Share API to let users share their favorite quotes directly from the website.
- Built a favorites system that allows users to save, and view their favorite quotes on the same page.
- Designed a clean interface, ensuring smooth usability.

Networking Project: Hotel Network Management System in Cisco Packet Tracer

- Designed a multi-floor hotel network with 8 VLANs for department-wise segmentation.
- Configured Router-on-a-Stick, OSPF, and DHCP across three routers.
- Implemented SSH and ACLs to secure remote access and control inter-VLAN traffic.
- Enabled inter-VLAN communication with dynamic IP assignment via DHCP.
- Simulated a realistic enterprise setup with wireless access points, printers, and IoT/mobile devices
